

Commercial Hive Plans – Pine / Cedar Timber

Bill of materials:

Quantity	Length	Height	Thickness	Notes
4	465mm	267mm	21mm	<ul style="list-style-type: none"> • Box jointed – approx 15mm height of fingers • Opposite sides rebated as below across 423mm internal space

Box joints required, approx 15mm height fingers seems popular!

Rebates

Rebates across internal width of opposite sides to hold frames, and to create clearance to any frames below (i.e bottom bee space):

All rebates 9mm into wood

Upper rebates height*:

- 17.5mm if using metal runners
- 11mm if no runner

Lower rebates height:

- 6mm from base
